

This is ME

Profiling Learners' Wellbeing and Background Data

This is Me! helps senior school managers efficiently track and organise pupils' wellbeing, wider achievements and background data over time.

This is Me! equips you with robust tools to assess, monitor, and enhance pupil wellbeing, embedding the language of GIRFEC in everyday practice and empowering pupils to articulate their experiences.

This is Me! brings together wellbeing indicators, SIMD, FSME, Care Experience, and Wider Achievement data offering a detailed, actionable view of each learner. Individual pupil reports are instantly generated, allowing you and your staff to intervene early at class, group, or whole school level.

This streamlined access to key data supports informed decision-making, strengthens professional judgement, and deepens your school's understanding of its learners.

Collecting data made easier

PLAYBACK LEARNING

Inclusion • Citizenship • Equality
